**REMARKS**

The pending Abstract of the Disclosure is canceled and replaced with a new Abstract which overcomes the noted informalities contained therein. If any further amendment to the Abstract is believed necessary, the Examiner is invited to contact the undersigned to discuss the proposed changes to the same.

Claims 22-42 are rejected under 35 U.S.C. § 112, second paragraph, as being indefinite for the reasons noted in the official action. The rejected claims are accordingly amended, by the above claim amendments, and the presently pending claims are now believed to particularly point out and distinctly claim the subject matter regarded as the invention, thereby overcoming all of the raised § 112, second paragraph, rejections. The entered claim amendments are directed solely at overcoming the raised indefiniteness rejection(s) and are not directed at distinguishing the present invention from the art of record in this case.

Next, claims 22, 23, 27, 38 and 39 are rejected, under 35 U.S.C. § 102, as being anticipated in view of Forsyth '263. The Applicant acknowledges and respectfully traverses the raised anticipatory rejection in view of the following remarks.

The Applicant thanks the Examiner for indicating that claims 24-26, 28-37 and 40-42 are objected to as being dependent upon a rejected base claim but would be allowable if rewritten in independent form to include all of the limitations of the base claim and any intervening claim(s). In accordance with this indication, the allowable subject matter of claim 28 is incorporated into claim 22 and such amendment is believed to place amended independent claim 22 in a condition for allowance. As claims 23 - 27, 29 - 38 and 42 all depend, either directly or indirectly, from amended independent claim 22, those dependent claims are believed to be allowable as well for at least the same reasons that claim 22 is allowable.

Lastly, claims 40 and 41 are both appropriately revised, to be independent claims, and both of those amended independent claims are now believed to be allowable.

In view of the above claim cancellation and claim amendments, the Applicant respectfully submits that further comments concerning the applied prior art of Forsyth '263 is not believed necessary. The Applicant also notes the remaining prior art cited in the official action. As none of that additional art is applied by the Examiner against the claims of this application, the Applicant is not providing any comments concerning that art as well.

If any further amendment to this application is believed necessary to advance prosecution and place this case in allowable form, the Examiner is courteously solicited to contact the undersigned representative of the Applicant to discuss the same.

In view of the above amendments and remarks, it is respectfully submitted that all of the raised rejection(s) should be withdrawn at this time. If the Examiner disagrees with the Applicant's view concerning the withdrawal of the outstanding rejection(s) or applicability of the Forsyth '263 reference, the Applicant respectfully requests the Examiner to indicate the specific passage or passages, or the drawing or drawings, which contain the necessary teaching, suggestion and/or disclosure required by case law. As such teaching, suggestion and/or disclosure is not present in the applied references, the raised rejection should be withdrawn at this time. Alternatively, if the Examiner is relying on his/her expertise in this field, the Applicant respectfully requests the Examiner to enter an affidavit substantiating the Examiner's position so that suitable contradictory evidence can be entered in this case by the Applicant.

In view of the foregoing, it is respectfully submitted that the raised rejection(s) should be withdrawn and this application is now placed in a condition for allowance. Action to that end, in the form of an early Notice of Allowance, is courteously solicited by the Applicant at this time.

The Applicant respectfully requests that any outstanding objection(s) or requirement(s), as to the form of this application, be held in abeyance until allowable subject matter is indicated for this case.
